- Arena – start 1 and 2, app. 1500 meter, or app. 20 min. walk. Marked with pink/light green flags.

Classes, course lengths and number of controls

Can be found in this overview: [Course/class overview 30 June](#).

Race map

Vejle, scale 1:4.000 and 1:3.000. Contour interval 2,5 meter.

Age groups M60 og W60 og above use 1:3.000, others use 1:4.000.

Terrain description

The area includes a complex old town area with shopping streets, backyards and narrow alleyways. Modern residential areas with apartment buildings and areas with public buildings and schools are also present. The northern part of the area consists of a 90-meters high slope, cut by deep ravines and partly vegetated by deciduous forest. The southern part is nearly flat. The area is cut by two railways and two water courses, both with several bridge passages. The railways can also be passed through tunnels at several places. The eastern part of the area reaches the harbour area, in which many new apartment buildings have recently been constructed.

Out-of-bounds areas

In many cases the out-of bounds areas are marked in the terrain as well as on the map. Hedges and fences will in some cases be marked with a violet line on the map, if crossing is not allowed. This is in addition to private areas and hedges and fences where the map symbol indicates that crossing is not allowed.

Safety

There is normal traffic in the town and even though there are measures in place to reduce the speed, you should be aware when crossing roads etc. In some places there will be officials guarding road crossings. Please follow the instructions from these officials.

The courses will go through residential areas, shopping areas, institutions, schools etc. You are encouraged to take this into consideration when passing through.

Childrens course

Exciting and challenging childrens courses are offered. Fine prizes.

Course setting

Jesper Fenger Grøn, OK Snab
